ABSTRACT

This 1999-2000 report from Cabrillo College (California) contains resource and reference information useful for planning, grant development, marketing, program planning, outreach, Partnership for Excellence, and accreditation self-studies. It offers information and statistics in the areas of governance, instruction, students, faculty, fiscal information, and facilities and services. This document includes an organizational chart; tables of program level information describing student placement test results; enrollment by major, gender, ethnicity, and age; student educational goals; success, retention and transfer rates; international student enrollment; degrees/certificates awarded; enrollment history at the Watsonville Center/Area between 1987 and 2000; number of financial aid recipients and applicants 1992-1999; enrollment projections through 2010; faculty and staff demographics and characteristics; institutional income charts and tables; facilities information; and crime statistics. Highlights for fall 1999 include: (1) 13,718 students enrolled at Cabrillo; (2) 59% of students were female; (3) median age of students was 27 years; (4) 189 students were African American, 510 were Asian, 2,777 were Hispanic, and 10,004 were White; and (5) 30% of students were full time. (Contains 102 figures and tables.) (PGS)

Welcome to the (1999-2000) Cabrillo College Fact Book!

(online Fact Book web pages: http://www.cabrillo.cc.ca.us/oir/factbook/fact.html)

The Fact Book contains resource and reference information useful for planning, grant development, marketing, program planning, outreach, Partnership for Excellence, and accreditation self-studies. The Fact Book helps faculty, staff, students, and members of the community in the understanding and the operations of the college in the areas of: 1) Governance, 2) Instruction, 3) Students, 4) Faculty, 5) Fiscal Information, and 6) Facilities and Services.

Since Cabrillo resumed publishing the Fact Book, every edition has been refined and reinvented, making it as dynamic and adaptive to college's changing needs as possible. The sixth edition is a product of extensive refinement of the existing data tables to make them more clear and user-friendly.

This edition of the Fact Book continues with special features such as:

1) For each program/department, Input and Output data has been rolled into one single table. This table contains input data in enrollment, majors, FTES, WSCH and output data in success, retention, degree awards and licensure exam passing rates.

2) Data tables are tagged for self-study standards, so that any standard study team may search the index and find the tables that contain the data.

Whenever possible, the Fact Book displays longitudinal data that may date back to the early 80's. Due to page size limitation, new entries automatically bump off entries from the previous year. Please refer to previous editions for information from earlier years. There will be differences in the data reported in the Fact Book and that by the Chancellor's Office. Whenever this occurs, and if it is longitudinal in nature, the Fact Book data prevails, for we have used consistent measures over the years.

It is a very time consuming task to compile the Fact Book. Each chart or table is a study in itself. We have made every attempt to present the data as accurately as possible. However, due to the complexities in collecting data and validating data, there may be a variety of imperfect elements. When data was incomplete or not available, cells in tables were left blank or marked "N/A". There will certainly be the areas for improvement in the next Fact Book. Please contact our office with your comments and suggestions.

We would like to thank the following individuals for their support and dedication to publishing the Cabrillo College Fact Book. I would also like to thank **John Hurd**, **Claire Biancalana**, **Pegi Ard**, **Manuel Osorio**, **Bette Hirsch**, **Rock Pfotenhauer**, and **Loreen Easterly**, for their firm commitment to and support of research and planning. Thanks also go to **Kay Cardwell, Rachel Mayo, Johanna Bowen, Gloria Garing, Marylee Morrison, Rich Ross, Salvatoria Larter, Donna Mekis, Judy Millan, the Research Advisory Committee**, and many others for their contributions in time and encouragement. We would like to thank **Judy Cassada**, for her hard work and timely help to this endeavor. **J.C. Firth** and **Sue Haas** should be specially commended on their support in obtaining the data. Finally, a word of appreciation to **Shirley Trimble**, our Student Assistant, who has displayed masterful skills in graphic design and web publishing for this lengthy and complex document.

To all who enter this book
May your studies be fruitful!

DW – Data Warehouse. Essential to research, planning, marketing, and executive decision making, a data warehouse provides the critical data source, outside surveyed or aggregate data. It typically consists of a collection of data files with unitary data elements either linked with a key or key variables or ready to be linked ad hoc with a relational database software program.

PFE – Partnership for Excellence. It is a mutual commitment by the State of California and the California Community Colleges system to significantly expand the contribution of the community colleges to the social and economic success of California. It is structured in phases, with substantial financial investment by the State in exchange for a credible commitment from the System to specific student and performance outcomes. Initiated in 1998 by the Chancellor's Office, it is a legislation driven program aimed to improve both system goals and district specific goals in Transfer, Degree/Certificate, Successful Course Completion, Basic Skills, and Workforce Development.

ACCREDITATION - Accreditation is a system for recognizing educational institutions and professional programs affiliated with those institutions for a level of performance, integrity, and quality, which entitles them to the confidence of the educational community and the public they serve. This recognition is extended primarily through non-governmental, voluntary institutional or professional associations. These groups establish criteria for accreditation, arrange site visits, evaluate those institutions and professional programs, which desire accredited status, and publicly designate those that meet their criteria.

AA – African American

AI – American Indian

WSCH – Weekly Student Contact Hours. Referring to the Output table, it is a way of examining productivity via a cost per resource by unit. It is the count of the number of hours per week that students are in attendance in a course.

FTES - Full Time Equivalent Student. Referring to the Output table, WSCH divided by 525 and multiplied by 17.5, which is the Term Length Multiplier defined as the number of weeks per semester.

FTEF - Full Time Equivalent Faculty. Referring to the Output table, it is the percentage of full-time equivalent faculty for a specific discipline.

PPR shows no statistically significant linear increase or decrease from 1992 to 1999.

PPR = Cabrillo full year enrollment (sm95,fa95,sp96=1995)/county population of 18 years or older per thousand.
Note: the rates are different (lower) when fall enrollment from student basic files are used.

Historically, Fall enrollments have increased by an average of about 333 students per year. Based upon past enrollment and assuming current trends continue, the model of best fit predicts enrollment will level off at about 14,250 students within the next two decades. However, as local population is increasing and Cabrillo and the State has a goal to increase enrollment, future enrollment will probably be higher.

The best fitting model (R-square = 0.933) is:

$$Enrollment = \frac{14250}{1 + 1.183x10^{195} e^{-0.13296(Year)}}$$

Projection Assumptions

The current trend is an extrapolation of the line of best fit. This would be a "best guess" of future enrollment if no changes occurred in factors influencing enrollment. The high and low estimates are based upon expectations of increased enrollment at the Watsonville Center coupled with population growth and demand increases as projected by the California Postsecondary Education Commission, which were partly based upon California Department of Finance and U.S. Census Bureau data.

Projection Assumptions

Projections by ethnicity were derived from overall projections by the following formula:

Ethnicity Estimate =
College Estimate x [(Main Campus Ethnicity Proportion x Main Campus Enrollment Proportion) +
(Watsonville Center Ethnicity Proportion x Watsonville Center Enrollment Proportion)]

This weighting was necessary as the ethnic distribution of students differs markedly between the Main Campus and the Watsonville Center and the majority of enrollment increases in the near future are expected to occur at the Watsonville Center.

Sources and Projection Assumptions

Enrollment and Graduation Data are from California Deparment of Education (CDE) and California Department of Finance (DOF). High School Graduate Projections are from DOF. 12th grade Enrollment projections were found by taking the proportion of DOF projected graduates to DOF projected K-12 enrollment divided by the actual mean proportion of graduates out of 12th grade enrollment from 93-94 to 98-99. Cabrillo High School graduate enrollment was projected by multiplying the DOF projected graduates by the actual mean proportion of Cabrillo enrollment to graduates from 93-94 to 98-99. These last two projections used mean proportions as a best guess since neither set showed a significant linear trend over time nor appeared to follow a nonlinear trend by inspection.
